## Through the Years

### Explore

The museum is home to exhibits that take guests on a journey from Indian times, through the days of pioneer settlement, up to the modern motel and condo eras.

### Local Attractions

Early photos and memorabilia from Florida's longest fishing pier are displayed. An exhibit dedicated to the area's big draw - Tiki Gardens - brings back memories of this Polynesian paradise.

### Home Life

Our home is a vintage beach cottage built in 1939. Our "pre-TV" room contains vintage clothing, a gramophone and musical instruments recalling early 20th century home life.

### Beach Life

Reflecting our barrier island location, local sea shells are identified and displayed along with an exact replica Loggerhead sea turtle.

### Stop by Often

Donations to support our activities and exhibits are appreciated. Watch for special exhibits and events that celebrate the history of Indian Rocks Beach.

### Learn More

Our gift area features books, historic postcards, calendars by the local Plein Aire Cottage artists and other beach mementos.
